

Our Lady of Wisdom Administration, Nursing Staff and Rehab + *Pastoral*

Dear Friends,

There is song that begins, "I can't begin to tell you how much you mean to me".

These are my sentiments as I leave Our Lady of Wisdom. I could not have asked for more caring and loving service than I received. I experience professional and expert skilled care all the days that I have been here. There is a warm and friendly welcoming atmosphere to everyone who enters this facility. People are gracious and kind always offering to assist in any way they can.

Of course there are no words to describe the physical therapy staff and service. Everyone who enters there feels loved and cared about. The atmosphere is light and cheery. I have experienced great progress in my recovery. This is a special group of people who love what they do and who they do it for. It is obvious that theirs is a ministry and not a job. They go above and beyond the duty required with never any inclination that it is an imposition. I have grown to love going to therapy and spent most of my time there.

It is a special privilege to have Catholic services within the building and many opportunities for prayer and devotions. Surely, the presence of the Lord is in this place. The pastoral care staff is truly ministers of the Lord spending themselves to create an atmosphere of devotion and prayer for everyone.

I would be proud to belong to such an outstanding group of dedicated administrators, nurses and staff. I am a cheerleader for Our Lady of Wisdom and could easily be a promoter to the public.

With St. Paul, "I thank my God when I think of you when I pray I pray with joy for you." Many blessings on each of you and your families.

5600 General DeGaulle Drive
New Orleans, LA 70131**

To Whom It May Concern:

My dear Mother suffered a severe stroke and became a resident of Our Lady of Wisdom for six and a half years. During that time, I was her primary family contact, handling her financial and health directives, as well as supplying personal needs to make her feel more comfortable.

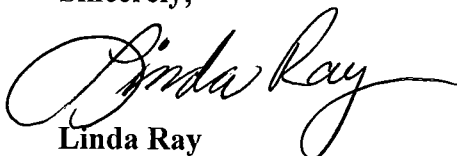

While the decision to move Mother into a nursing facility was difficult, once I saw the facility and was greeted so warmly, I felt I was making the right move for her wellbeing. It also availed me the opportunity to continue my business and spend quality time with her.

I visited Mother many times a week at various hours. The wonderful care she was given and the compassion that was shown both to her and me did not vary. She was always clean and made comfortable during her various levels of declining health. I witnessed the love and special attention she was given by many of the caregivers as if she were their family member. This warmth gave me much comfort and helped me cope with a very challenging time.

I know that all of this care does not happen without great leadership, committed support staff and constant oversight. I wish to thank everyone at Our Lady of Wisdom Healthcare Center for helping to fulfill the mission for the betterment of all the residents and their families.

Wishing you all much joy, God's blessings and good health,

Sincerely,

Linda Ray
